

AIR QUALITY PERMIT NOTICE
Draft Federally Enforceable/Conditional Major
Operating Permit F-06-043

Alstom Power Service MWSC - Source I.D. 21-117-00176

The Alstom Power Midwest Service Center has applied to the Kentucky Division for Air Quality for a permit to operate a fabricated metal products manufacturing facility at 1500 Jamike Avenue in Erlanger, Kentucky. The plant is classified as a Conditional Major source due to its having potential emissions of hazardous air pollutants greater than a major source threshold. This permit contains practically enforceable limitations to restrict this source's potential emissions to less than a major source threshold.

An electronic copy of the draft permit should shortly become available at <http://www.air.ky.gov/permitting/>. Copies of the draft permit and relevant supporting information are available for inspection by the public during normal business hours at the following locations:

Division for Air Quality, 803 Schenkel Lane, Frankfort, KY 40601; Division for Air Quality Florence Regional Office, 8020 Veterans Memorial Drive, Suite 110 Florence, KY 41042 and the Kenton County Clerk's Office, 303 Court Street, Covington, KY 41012

The Division is soliciting comments on the draft permit and affording the opportunity for a public hearing. To be considered, any written comments or requests for a public hearing must be postmarked within 30 days following the date of this notice. Comments and/or public hearing requests should be sent to Mr. James Morse at the above Frankfort address. Any person who requests a public hearing must state the issues to be raised at the hearing. If the Division finds that a hearing will contribute to the decision-making process by clarifying significant issues affecting the draft permit, a hearing will be announced. All relevant comments will be considered in issuing the final permit. Further information can be obtained by calling Rick S. Shewekah at (502) 573-3382 or email at Rick.Shewekah@ky.gov.
